

effective manhole repair for your

Municipality

Level, watertight manholes aren't a luxury for residents, they're a necessity.

Fast • Safe • Affordable

PROUDLY MANUFACTURED IN THE U.S.A.

If you want to see residents upset, ask them about sunken manholes.

They're annoying and can actually cause damage to vehicles. If left untreated, the manholes can deteriorate further and damage the manhole structures. Leaky manhole structures can allow millions of extra gallons of water to seep into the system, costing your city extra money every year.

With the Mr. Manhole system, you say goodbye to costly sunken manholes. You'll experience a smooth, leakproof, and durable repair that is both resident and budget-friendly.

Mr. Manhole cost savings

Let's compare our costs to the cost of the old method.

Labor: (5 men) @ \$44.00 per hr. x 5 hours	\$1,100
Concrete repair rings: (2)	\$96
Air Hammer Rental:	\$300
Concrete or Asphalt:	\$144

OLD METHOD
TOTAL COSTS **\$1,640**

Labor: (5 men) @ \$44.00 per hr. x 1 hour	\$220
Mr. Manhole Materials:	\$178
Air Hammer Rental:	\$0
Concrete:	\$66

NEW METHOD
TOTAL COSTS **\$464**

Save the city budget

In addition to the reduced labor costs, material cost is drastically reduced. The Mr. Manhole system uses a round cut instead of a traditional square cut, which requires twenty percent less excavation and twenty percent less material to replace.

Now, the savings on materials and man-hours is certainly a benefit, but the real perk is improved worker safety. Since the majority of the heavy work is done by the tools, municipal workers are better protected from injuries. And because there is less repair time, risks from disrupted traffic is also minimized.

Save man-hours and complete more projects, drastically reducing cost.

Why choose Mr. Manhole?

SAVE TIME

Drastically reduce costly traffic control hours.

SAVE MONEY

Reduce the amount of equipment required.

IMPROVE CREW MORALE

Use the latest and most efficient equipment.

REPUTATION FOR EXCELLENCE

Speed and quality of repairs will quickly be noticed.

PROVEN METHOD

The world is taking notice of this new standard.
