

MR. MISTER

OUR QUICK INSTALL,
COMMERCIAL
MISTING SYSTEM

Mr. Mister is your solution to new silica exposure OSHA regulations.

Mr. Manhole has developed a new misting system for our cutter tools, which will control silica exposure for your crews and allow you to fully comply with the new regulations.

Easily use this tool to control dust as you cut out concrete and asphalt!

The Mr. Mister tool works to control dust by:

- ✓ Utilizing an adjustable water flow rate range of ½ gallon per minute to 1 gallon per minute
- ✓ Mounting the Mr. Mister to the Mr. Manhole cutter tool on a skid steer loader
- ✓ Allowing the entire cutting and removal operation to fall under a category 4.8 vehicle mounted drilling rig
- ✓ Allowing your operator to sit in an enclosed cab and use the water spray for dust suppression

THIS IS THE
**Smarter,
Faster,
Safer**
OPTION!

*Use the Mr. Mister
system alongside
your Mr. Manhole
tool to make OSHA
compliance a breeze.*

There is nothing similar on the market.

THE MR. MISTER COMES WITH:

- ✓ Aluminum spray head (which resists corrosion)
- ✓ Four adjustable filtered spray nozzles
- ✓ A flow control valve to adjust the spray pattern
- ✓ 12.5 ft. high-quality water hose
- ✓ Quick connect fittings located adjacent to hydraulic fittings for convenient hook-up
- ✓ Fittings mounting bracket is a direct bolt on for Bobcat skid loaders
- ✓ Quick bolt-on installation with detailed instructions
